

DRILL - RELAY OF REQUEST FOR 911 CALL. [E.G., NEEDED WHEN STN HAS NO PHONE SERVICE]

Overview and Explanation: During net operations, assume a station needs someone to make a relay call to 911. The net will temporarily be paused while the Drill Emergency Traffic is taken, Control will request a station to make the drill 911 call [TACTICAL IS "911 RELAY"], and then net operations will continue while the 911 relay station makes the call. That way the net continues operations.

When the person who volunteered to make the drill 911 call has "made" the call, he/she will report back into the Net and advise CONTROL - "[drill] 911 call done". At some point later, "Cal Fire 20" will advise control that "dispatch transmitted the [drill] 911 call". The net operations again continue.

STATIONS INVOLVED WITH SCENARIO				<h2 style="text-align: center;">TRAFFIC FLOW</h2> <p style="text-align: center;">[go slow and be clear so information can be accurately written down and relayed]</p>
STATION RUNNING NET	STATION needing [DRILL] 911 call	STATION MAKING [DRILL] 911 Call TO 911	"Cal Fire 20"	
"CONTROL" [or "FIRE CONTROL" ETC...]	YOUR TACTICAL [E.G., "F1" "MIDWAY _]	'[drill] 911 RELAY'	"Cal Fire 20"	
	XX			While CONTROL is taking reports, and after you hear control say "copy _[F1]_" WHEN YOU HEAR "NEXT" (OR BEFORE) (you pick the spot - while the net is actively being conducted) AND -- SAY - "(YOUR TACTICAL) DRILL EMERGENCY TRAFFIC"
CONTROL				SAY - "ALL STATIONS STANDBY. DRILL EMERGENCY TRAFFIC GO"
	XX			SAY - " Drill - EMERGENCY MEDICAL – 75 YEAR OLD MALE - HEART ATTACK AT 123 DRILL STREET, SHINGLETOWN. Drill"
CONTROL				SAY - " Copy drill emergency medical traffic - 75 year old male - heart attack at 123 drill street – drill, CONFIRM"
	XX			SAY - "CONFIRM" (NOTE: IF THERE IS AN ERROR JUST FIX IT AND MOVE ON.\ NO APOLOGIES, OR WASTED EXPLANATIONS, ETC...).
CONTROL				SAY - "NEED [DRILL] 911 RELAY"
		[drill] 911 RELAY		[A STATION RESPONDS THAT HAS THE ABILITY TO CALL 911 BY PHONE] SAY - "THIS IS [YOUR TACTICAL] – I WILL TAKE [DRILL] 911 RELAY"
CONTROL				SAY - "[DRILL] 911 RELAY, CONTROL, READ BACK DRILL EMERGENCY TRAFFIC. "
		[drill] 911 RELAY		SAY - "CONTROL, DRILL 911 RELAY, " Drill MEDICAL – 75 YEAR OLD MALE HEART ATTACK AT 123 DRILL STREET Drill – CONFIRM."
CONTROL				SAY - "[DRILL] 911 RELAY, CONTROL, CONFIRM.. PLEASE CALL 911 AND RELAY [DRILL] EMERGENCY TRAFFIC".
		[drill] 911 RELAY		SAY - "ROGER" (FOR DRILL DO <u>NOT</u> ACTUALLY CALL 911). [In a real situation, you [DRILL 911 RELAY) would place call to 911 and relay the emergency exactly as you received it.]
CONTROL				SAY - "THIS IS CONTROL, CONTINUING NET OPERATIONS, NEXT" (THE NET CONTINUES OPERATIONS)...
		[drill] 911 RELAY		SAY - "[DRILL] 911 RELAY"
CONTROL				SAY - "[DRILL] 911 RELAY – Go"
		[drill] 911 RELAY		SAY - "[DRILL] 911 CALL DONE"
CONTROL				SAY -"COPY REPORT – [DRILL] 911 CALL DONE" SAY - "CONTINUING NET OPERATIONS, NEXT" (continue with net operations)
			CAL FIRE 20	SAY - "CAL FIRE 20"
CONTROL				SAY - "CAL FIRE 20 GO"
			CAL FIRE 20	SAY - CONTROL, CAL FIRE 20 - CAL FIRE DISPATCH HAS TRANSMITTED [DRILL] 911 CALL"
CONTROL				SAY - "COPY REPORT – CAL FIRE HAS TRANSMITTED [DRILL] 911 CALL. SAY - "NEXT" (continue with net operations)
