

-Tueller Drill / Reactionary Gap-

In 1.5 Seconds Attacker

will reach you and stab you*.

ATTACKER YOU ARE STABBED **STUDENT NAME:** _____
 | STABBED Date of live fire drill: ____/____/____
AT OR BEFORE HERE* Student personal data on, reaction,
O-----> response, time and distance.

*Note: Average time attacker will reach and stab you is 1&1/2 seconds from 21 feet away. Could be any type of contact weapon. Examples: knife, screw driver, axe, broken bottle etc... (stabbed); baseball bat, tire iron, hammer, etc... (beaten).

Your Results:

Distance attacker covered during the attack compared to the time it took you to draw and fire your first and second shots:

1st Shot Results: (Your shot hit the attacker ____; or you Missed ____)

Attacker covered

Yards (circle yards): **7** 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28

Time it took you to draw and fire your first shot: _____
 Time in Seconds:-->> _____

2nd Shot Results: (Your shot hit the attacker ____; or you Missed ____)

Attacker covered

Yards (circle yards): **7** 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28

Total time you took up to firing of your second shot: _____
 Time in Seconds:-->> _____

YOUR CONCLUSION:

I would have been: Stabbed at least once: _____; Or, I would have been stabbed multiple times and likely dead: _____

Consider: Significance of being "aware" vs in "condition White"(Color Code of Mental Awareness); when to draw firearm; and Handgun Wounding Factors and Effectiveness Report (attacker - capable of full voluntary action for 10-15+ seconds after heart destroyed).
