\*\* 10 (760) may be on MONITOR only due to malicious keying of repeater (Only HQ Stations have satellite TX). Thus, Satellite "10 Alpha Relay" needed in such cases so people can listen to 760 (10.) but no TX into 760 (10). Also, 10 (760) may be turned off due to malicious keying of repeater and waking station operators up during night.

++ 58 RELAY STATION MUST USE EROC 58 ON HIGH POWER. SEE Note 8.
