**AFTER ACTION COMMENTS:**

1. **FOR DRILL EMERGENCY TRAFFIC RELAY** – STATIONS CAPABLE OF MAKING 911 RELAY CALL NEED TO RESPOND AND HELP. OTHERWISE, ENTIRE NET IS SLOWED DOWN (WHICH COULD RESULT IN REDUCED RESPONSE TIME FOR OTHER EMERGENCY CONDITIONS).
2. **When a call is made by Net Control (e.g., "next"), only provide your tactical after Net Control states "next" (do not give your report at this point).** There will also be a pause between reports by Net Control to allow any emergency traffic to break in.
3. **Net Control will then "pick" a station and say "go"** (e.g., "F1 go"). At that time F1 gives his/her report. This avoids doubling (which means no one hears anyone).
4. **If Net Control doesn't pick you,** then you need to keep trying (following steps 1 and 2, above).
5. **Net Control will acknowledge each full report as "copy \_\_\_\_"** ( e.g., "copy F1" ).
6. Outside antennas are **strongly** recommended (you are preparing for emergency comms).
7. **Also, if you hear a station that Net Control can't hear, then after Net Control states "next", you would say (for example): "F1 relay",** then Net Control will acknowledge and say "F1 relay go". F1 is to then obtain the report (from the station that they can hear but Net Control can't) and relay it into Net Control.

**ANOTHER GREAT JOB TONIGHT! THANK YOU.**

Note: Request was made on 760 (10) for any non hams from areas not able to reach EROC 9 to send a report by e-mail or phone to show they are participating.
