Net Control Recommendation: ☐ ACTION _____
    ☑ No action   NO ACTION

TOTAL NET TIME	**12**	MIN	(from initial tone out activation to closing)
Divisions Reporting	**3**	DIV	(# of Shingletown Div.)
Areas Reporting	**5**	AREAS	(# of neighborhoods)
Total Stations Reporting from All Areas: (each Area having done its own Area Net and Relaying summary into SER Net Control. All Area summary reports are then mapped, summarized and followed by Net Control Recommendation as to action (if any) to be done). Operations Center Mapping Summary and Recommendations are then TX on EROC 9 and Ham.	**17**	**REPORTS TOTAL**	(Total STNS reporting) (including ____ report(s) for drill **N/A** (if applicable)

:

2. When a call is made by Net Control (e.g, "next"), only provide your tactical after Net Control states "next" (do <u>not</u> give your report at this point). There will also be a pause between reports by Net Control to allow any emergency traffic to break in.

3. Net Control will then "pick" a station and say "go" (e.g., "F1 go"). At that time F1 gives his/her report. This avoids doubling (which means no one hears anyone).

4. If Net Control doesn't pick you, then you need to keep trying (following steps 2 and 3, above).

5. Net Control will acknowledge each full report as "copy ___ " (e.g., "copy F1").

6. Outside antennas are **strongly** recommended (you are preparing for emergency comms).

7. Also, if you hear a station that Net Control can't hear, then after Net Control states "next", you would say (for example): "F1 relay", then Net Control will acknowledge and say "F1 relay go". F1 is to then obtain the report (from the station that they can hear but Net Control can't) and relay it into Net Control.

Note: Request was made on HAM for any non hams from areas not able to reach EROC 9 to send a report by e-mail or phone to show they are participating.

NOTES: STARLITE ONLY HEARD STATIC ON 58, BUT HEARD MWM VERY WELL FROM REST AREA. (FROM VILLAGE RELAY 58)
