

SHINGLETOWN EMERGENCY RADIO PLAN - DRILL NET REPORT. +

DATE: **02/11/2021** TIME: 1900 HOURS Report prepared by: K6PDS

Type of Net: ▶ Practice Drill Net ▶ Active Fire Net (DUE TO FIRE DURING PRACTICE NET)

Freq – HAM
 PRIM Net on: 760_ 505_ (e.g., bad weather use 505)
 w/relay
 w/o relay _
 PARALLEL Net on: 505_ 760 Relay_ 760 Silent
 w/relay_
 w/o relay _ [silent monitoring to conserve Battery (e.g., bad weather)]

HAM TONE TYPE:
 Prim Freq. Tone Announce – non emerg.
 Parallel Freq. Tone Announce-non emerg.

Freq. NON HAM
 Each Area / Neighborhoods: CH 1 TONE ANNOUNCE – NON EMERG

Activations:
 Full-all areas QXA (Sitrep) QWA PROCEDURE:
 Partial: REQUESTED_ NOT REQUIRED

ADDIT. MTTTRS: ***During Practice Net, Fire Net Activated due to fire in area of 44 / alward (ACTUAL – NO DRILL)**

Divisions Reporting **4**

Areas Reporting **6**

Station Reports **32**

TOTAL TIME FOR ALL HAM, AND NON HAM NEIGHBORHOOD NETS: **49*** **MINUTES**
THIS IS THE TOTAL TIME (STARTING FROM HAM NCS ACTIVATION / TONE OUT) IN WHICH Ham Nets and all Area / Neighborhood Nets were Activated and through the end when all nets were completed. Such includes: information gathering at each Neighborhood level, report taking at each Area Neighborhood level, Relay of the Area reports into the Ham Nets, summarization and mapping, etc... of all Area station reports, together with Net Control recommendations, and with the summary report transmitted for all stations to copy and to report back into their own Area / Neighborhoods on each Areas Ch 1 (Non Ham Freq) following the Ham Nets. See Note Below **.

TATICALS ACTIVATED: ▶
 [ITEMS ARE MARKED WITH]
 ▶ Prim NET ON: ▶ NCS 760_ **OR** ▶ NCS 505_
 ▶ RELAY EAST
 ▶ RELAY WEST

Hams Stns Helping on Ham Nets (PRIM & PARALLEL):
 ▶ K6PDS KQ6CS W6CCR KN6LQL KB6BZL W6MWM
 ▶ Parallel NET ON: ▶ 505 RELAY_ **OR** ▶ 760 RELAY_ OR 760 Silent Monitor
 ▶ RELAY EAST_
 ▶ RELAY WEST_

[HAMS ASSISTING ON NEIGHBORHOOD NETS NOT LISTED UNLESS REPORTED INTO HAM NET. SPECIFIC AREA STN CHECK IN INFO. NOT AVAIL TO HAM NET.]
 ▶ 160 TC ▶ MAPPING 1 ▶ MAPPING 2 ▶ TRIANGUL 1_

▶ CAL FIRE MON ▶ TAC 11 MON ▶ TAC 9 MON_

****NOTE: Ham Nets Coordinate all Neighborhoods and perform the mapping which aggregates all Neighborhood Reports to achieve overall situational awareness for all of Shingletown, in addition to triangulation for smoke, fires, etc... and preparing and transmitting the overall report summary and recommendations, etc...).**

COMMENTS: The Ham Net Operations involve, inter-alia, operating on 3 or more frequencies during the Nets while concurrently performing Net Operations, recording input, summarizing, mapping, etc... . The SER system has time schedules for various operations to facilitate coordination of various operations which are all being run concurrently. Following SER procedures is very important.

We need more Hams to help out. In the event of an emergency, without sufficient Ham Operators, SER will have to use non hams for Emergency Communications duties (e.g., Fire Nets) in accordance with SER Policy and published FCC rules. All operators need to follow SER Procedures so that you can help out when needed.
