

12/09/2021 SHINGLETOWN EMERGENCY RADIO (Practice Net: PRIM 760 W/ 505 RELAY)

Our SER practice Nets tonight included a non ham station in the Village relaying 3 **Drill reports** to the Village Area Coordinator. This shows how a Non Ham in a neighborhood net can facilitate communications for reports they receive from other neighborhoods outside his/her own area (this can of course also be done for relays within your own area). The Village Area Coordinator in turn relayed these 3 Drill reports into the Ham net for mapping, etc... . We were short on help tonight due to the holidays.

Reminder: If non hams stations have no hams to relay your neighborhood reports into the Ham net, please send me your report (in the proper format) to - zlaw@taxsos.com. During emergencies, non hams would use the Ham frequencies. Summary (updated for e-mail reports):
